**AGREEMENT IN LIEU OF AN EROSION AND SEDIMENT CONTROL PLAN**

Address of Land Disturbance: \_\_\_\_\_ Tax Map #: \_\_\_\_\_

Building Permit No.: \_\_\_\_\_ Subdivision: \_\_\_\_\_

In lieu of submission of an erosion and sediment control plan for this construction, I agree to comply with any reasonable requirements determined necessary by employees of the City of Harrisonburg representing either the Building Inspector or the City's Erosion and Sediment Control Administrator. Such requirements shall be based on the State's Minimum Standards (4VAC50-30-40), and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation on or resulting from this project.

I further understand that failure to comply with such requirements within three working days following the notice by the representatives of the City of Harrisonburg could result in citation for violation of the City's Erosion and Sediment Control Ordinance.

**Measures Specified by Plan-Approving Authority:**

1. Place silt fence or other approved measures down slope of soil stock piles, disturbed areas and in areas where sediment may be transported. Silt fence shall be entrenched.
2. Gravel the site entrance as soon as possible to limit mud tracked onto roadways. Clean any sediment off of roadway with shovel and spread back onto property at end of day. Washing sediment down roadway or into storm inlets will not be permitted.
3. Temporary soil stabilization shall be applied within seven days to denuded areas that may not be at final grade but will remain dormant for longer than 30 days. Permanent stabilization shall be applied to denuded areas within seven days after final grade is reached on any portion of the site.

If you or your contractor has any questions about proper installation of erosion and sediment control measures, please the City's Site Development Technician at (540) 432-7700.

Property Owner further grants the right-of-way entry onto this property, as described above, to the designated personnel of the City of Harrisonburg for the purpose of inspecting and monitoring for compliance with the City of Harrisonburg's Erosion and Sedimentation Control Ordinance and Program.
